Washington, D. C., Dec. 17.—Col. Ulius Amoss, operator of a private foreign intelligence service, declared today that the "Lavrenti P. Beria" who allegedly confessed in Moscow to crimes against the Soviet, is a phony double.

Col. Ulius Amoss

Amoss, wartime member of the super-secret OSS, is president of the International Services of Information Foundation, with headquarters in Baltimore.

He discounted almost entirely the official announcement in Moscow yesterday that Beria, once head of the Soviet secret police and chief of the Red A-bomb project, had confessed to treason.

The Moscow statement said Beria had admitted a counter-Soviet plot running back 35 years and was trying to restore capitalism. He was reported arrested last June.
